SUMMARY

Senior Full Stack Engineer /Developer with 4+ years of experience building and scaling enterprise-grade, high-performance web applications using React, Node.js, and Micro frontend architecture. Demonstrated end-to-end ownership in delivering greenfield applications from concept to production, including AI-powered platforms such as an AI-based PPT generation system and data-driven document generation workflows. Experienced across financial platforms and enterprise admin systems, with strong expertise in performance optimization, modular architecture, and resolving high-severity production issues. Known for reliable delivery, technical ownership, and effective collaboration with cross-functional global teams.

WORK EXPERIENCE

Associate Software Engineer, Kaay labs Private Limited.

May 2022 - Aug2025

- Developed and maintained large-scale web applications for stock market platforms, electronic data systems, and data collection workflows.
- Improved and upgraded applications by migrating from Ant Design v3 to v8, resolving bugs, and ensuring cross-module compatibility.
- Resolved critical production issues and addressed module federation challenges in a micro-frontend architecture, enabling smooth workflows and minimizing cross-application disruptions
- Collaborated with a senior development team to manage production incidents, scale applications, and consistently meet tight deadlines.

Senior Software Engineer , Photon Interactive Private Limited

Sep 2025- Present

- Led end-to-end development of **Tenetic**, a B2B AI-powered admin platform for consumer behaviour tracking, owning both frontend and backend architecture.
 - Designed and implemented a scalable 3-layer backend architecture, integrating AWS S3 for AI-generated PPT storage, FusionAuth for authentication, and Databricks for AI model workflows.
 - Built a hybrid data strategy, using MongoDB for large-scale AI data processing and MySQL for structured, module-wise transactional data.
 - Resolved critical development and release-time issues across FE & BE, coordinating with cross-functional teams to ensure stable deployments and on-time delivery.
-

EDUCATION

Bachelor of Engineering(CSE)

Jun 2015 - April 2019

Anna University College of Engineering

TECHNICAL SKILLS

- **Frontend Engineering:** React.js, Next.js, JavaScript (ES6+), Typescript, HTML5, CSS3, Redux, Ant Design, Material UI
- **System Design (Frontend):** Microfrontend Architecture, Module Federation, Reusable Component Systems
- **Backend & APIs:** Node.js, Express.js, Fastify, REST, GraphQL
- **Data & Storage:** MongoDB, MySQL, Redis
- **Security & Auth:** Keycloak, JWT, OAuth, Role-Based Access Control (RBAC), FusionAuth
- **DevOps & Infra:** Git, GitHub, CI/CD, Jenkins, AWS (EC2, S3)
- **Practices:** Agile/Scrum, Code Reviews, Performance Optimization
